B O D Y S H A P E R

How the Body Shaper Works:

Radio frequency and Infrared light (700-2000nm) focus on heating the epithelial tissue and connective tissue; infrared light heats tissue up to 5mm while radio frequency from 5mm to 15mm in depth which effectively increase the oxygen driven, strengthen the material exchange into and out of cells and promote fat metabolism.

Infrared light increases tissue elasticity, heats subcutaneous fat and shrinks fat cells while protecting epidermis.

Vacuum facilitate blood flow and catalytic enzyme release for fat metabolism.

The synergistic combination of Radio frequency and infrared light with vacuum highly increases fat metabolism within the mitochondria, for an instant body reshaping. In once session a reduction of 2-3cm can be instantly visible.

Applications:

- Cellulite treatment, body shaping
- Eliminating double chin, face lifting
- Skin tightening
- Remodelling body shape
- Post-liposuction figure sculpture

XF-I handpiece

The Difference with the Body Shaper:

Radio Frequency is a highly controllable energy heat source, works synergistically with optical energy. It precisely targets areas "preheated" by optical energy and uses light energy at a level that is safe for all skin types.

Contact cooling on skin's surface provides increased comfort and there is No additional risk to the epidermis which make this treatment safe all skin types.

XF-VI handpiece (same functions as XF-I handle)

Treatment Theory:

To achieve Reduction in Cellulite and Tightening of the Skin the synergistic combination of RF (radio frequency), IR (Infrared light), Roller and Vacuum helps increases blood circulation and oxygen intracellular diffusion on partial tissue and increases lymphatic drainage.

Optimal hyperthermia penetrates into subcutaneous tissue to activate fibroblast of connective tissue and increase collagen and elastic fibres, which gives you a smoother, younger looking skin.

XF-VIII & XF-IX handles

XF-I Handle

Mechanical rollers & bipolar RF:

strengthening RF penetration depth, reaching the adipose tissue, optimal hyperthermia penetrate into subcutaneous tissues.

Infrared light:

700-1200nm wavelength, increasing skin elasticity, smoothing skin.

Vacuum suction:

Accelerating blood circulation & promoting cell metabolism.

Technical Parameters of Body Shaper:

Power Supply	AC220V±10%, 50Hz or 60Hz
Vacuum treatment handpieces	4pcs (XF-I, XF-VII, XF-VIII, XF-IX)
RF frequency	2.6MHz sine wave
RF energy	1-50J/cm ³ Stepping: 1J/cm ³ /s
Suction intensity	1-5 adjustable
Pulse mode	Pulse
Suction intensity	-0.9 bar
Suction frequency	level 1-4 variable
Wavelength of infrared light:	700-2000nm
Dimensions (before packaged)	367mm×390mm×390mm
Dimensions (After Packaged)	659mm×530mm×576mm
Net Weight	40kgs
Gross Weight	56kgs

Belladerma Body Shaper Advantages:

- 12.1" TFT touch LCD provides easy management and control of treatments.
- Effective synergistic combination of vacuum, IR (Infrared Light), Bipolar RF and mechanical Roller.
- 2.6MHz sine wave RF output ensures stable RF energy that ensures more comfortable treatments.
- Four handpieces helps to optimise different treatments which increases efficiency and comfort during treatment.
- Small display on the XF-I and XF-VII handle, enables to adjust parameters and control the machine easily.
- Removable rollers of XF-I and XF-VII handpiece facilitate cleaning and avoid cross infection.
- The adjustable energy of IR and Bipolar RF facilitate different treatment requests. Four operation modes are available for different treatments.
- Air filter system avoids damage to the machine by preventing inhale of oil or paste.
- Unique shell and inner framework design is convenient for maintenance.
- Foot pedal and button switch dual-control system satisfies various operating habits.
- Superb Appearance and User Friendly Beauty device.

Why Choose the Body Shaper?

- First and only FDA-cleared non-invasive medical solution for Circumferential Reduction.
- Virtually painless non-surgical and non-invasive treatment resulting in no downtime - you can return to your daily activities immediately following treatment.
- The precise heating of the targeted treatment area ensures a safe and effective treatment.
- Effective on all skin types and all skin colours.
- Vacuum and specially designed rollers for the Mechanical Massage smooth out the skin to facilitate safe and efficient heat energy delivery. The net result increases the metabolism of stored energy, increases lymphatic drainage and reduces or shrinks the size of the actual fat cells and fat chambers.
- Inexpensive to run and maintain.
- Every easy to use and treatments are very quick.

The Results

- Gradual smoothing of skin's surface with a noticeable reduction in cellulite.
- Circumferential Reduction, with noticeable reshaping of the treated area.
- In a clinical multi-centre study, 85% of the treated areas have reported Circumferential Reduction of thighs of at least 1cm; ranging up to 7.2cm in reduction.
- With the Body Shaper it is easy to enhance your body, improve your lifestyle and feel better about yourself!

Before and After Photos

THIS VALUE FOR MONEY MACHINE INCLUDES TRAINING,
BACK UP, DELIVERY AND HANDS ON SUPPORT.

ONE THE MOST RELIABLE AND EFFICIENT PIECE OF BEAUTY EQUIPMENT AT
THE MOST AFFORDABLE PRICE IN SA.
